

Real growth in US institutional holdings of European firms, by country

Year-over-year percent change in CPI-U-deflated market value (2020 USD). Shown from 2005; earlier quarters are dominated by LionShares coverage ramp-up. Common y-axis clipped at +200%: reporting-coverage expansions (2014, 2019, 2020; late-starting CEE countries) run off-scale rather than rescaling their panels.
